

Official announcement to discontinue the production of BIG+KAISER Large diameter boring tools

We started our sales of BIG-KAISER CK7 Large diameter boring tools in 1983, and have been promoting and upgrading these series over the years. We are pleased to see the markets and customers appreciate its performance and reliability. With an introduction of the new series for high speed and utmost safety in operation, we would like to announce that the current CK7 versions will be replaced by the new generation, type “N” and the production of the current models will be discontinued by the end of December, 2017.

Please continue to use our Large diameter boring tools and choose its latest series, type “N” and we are sure it will meet your needs and expectations.
